Mechanical, Electrical, & Plumbing Engineering Services

T-Squared Professional Engineers, Inc. has provided high quality consulting services for Mechanical, Electrical, and Plumbing engineering design for 20 years. Our value to your facility is our extensive experience and comprehensive knowledge of design criteria in numerous types of facilities.

- Military/Federal
- Educational
- Commercial/Retail
- Healthcare
- Municipal/Public
- Residential
- Industrial
- LEED Facilities

Photovoltaic (PV) Systems Engineering Design

- We provide integrated, fully-engineered photovoltaic systems for projects of all sizes and budget constraints.
- All systems are coordinated with all other design and construction disciplines.

LEED® Services

We are a LEED® Accredited company and offer:

- LEED® Engineering Designs - our designs focus on energy efficiency, simplicity, sustainability, reliability, and ease of maintenance.
- LEED® Administration Services - Administration and management of all credits, including uploads, response to USGBC comments and other certification related services.

Building Commissioning Services

We are a Certified Commissioning Authority (CxA) through the AABC Commissioning Group (ACG). We provide CxA services per the requirements of LEED® projects and the mandatory provisions of the California Green Building Standards Code, Section 5.410.2.

Federal Agencies

- US Navy
- US Marine Corps
- US Air Force
- Army Corp of Engineers
- Dept. of Veterans Affairs

Educational Institutions

- UC San Diego
- UC Irvine
- Univ. of Southern California
- Oxnard College
- Loma Linda University

Local Government

- Counties of: Orange, Riverside, San Bernardino, San Diego
- Cities of: Moreno Valley, Palm Springs, Riverside, San Diego
- School Districts: Carlsbad, Desert Sands, Escondido, Fullerton, Oceanside, Palm Springs, San Diego, Vista
